Databases: MySQL, MongoDB, GraphQL

Tools: Git, Github, Heroku, AutoCAD, SolidWorks, Creo, Fusion360, Docker, ATLAS

EMPLOYMENT HISTORY

Health Canada: *Ottawa, Ontario*. June 2021-Present

Administrative Officer

- Provide administrative support to both OTBI and OWS teams within HECSB.
- Provide Level 1 support to all ATLAS systems, including account maintenance, handling system outages, and responding to general enquiries to the ATLAS inbox.
- Aim to achieve a high level of customer service, with the majority of routine requests handled within 3 business days of receipt and urgent problems such as system outages handled as soon as reasonably possible.
- Provide administrative support to the OTBI team as directed by Dir-OTBI. Examples of such duties include: providing coordination, developing materials, and scheduling events and exercises; sending and receiving requests

for information from other areas and collating data for director review; drafting correspondence and notes for peer or director review; and managing routine paperwork for the office on behalf of peers and director

FireWork Solutions: *Ottawa, Ontario*. March 2020-Present

Founding Team Member - Lead Web Developer

- Developing and facilitating the front-end designs for all FireWork web applications;
- Full understanding of the goals of the website and continued strong understanding of web design standards, responsive design, and UI/US;
- Work collaboratively with the product team to make decisions that will affect the success of the business.
- Stay well informed on the social media marketing space and keep up to date with the most recent developments in the industry.
- Working collaboratively with Lead Mobile Front-End and Lead Back-End developers at FireWork with creating and testing applications for the website;

El Furniture Warehouse: *Ottawa, Ontario*. April 2016-June 2021

Bar/Floor Manager/Health and Safety Representative

- Oversee and support a group of 10+ employees during a day or night shift. Provided many opportunities for me to adapt and respond quickly to all types of management issues while working in a team
- Build and Maintain weekly employee schedules by organizing staff through experience, and prioritizing the needs of the business.
- Balance daily cash out sheets and ATM. Brought about the importance of paying attention to detail, hone basic accounting and business-related financial records.
- Maintain restaurant POS, ATM and Moneris systems. Kept all payment and ordering systems working. Required troubleshooting of various hard and software issues that arose with the computer systems in place.
- Follow and implement restaurant opening and closing procedures. Maintained restaurant cleanliness and kept all workers busy.
- Provide excellent customer service to every customer.

Laurin General Contracting: *Ottawa, Ontario*. April 2015-August 2015

General Labourer/Health and Safety Representative

- General construction site odd jobs. Taught the importance of hard work/long hours. Introduced to the field of construction and all things that come with it.
- Conduct weekly safety meetings. Be available to any worker on site with any health and safety issues. Experienced with implementing OHSA health and safety standards to a group of workers.

PROJECTS

Productivity Booster | <https://christopherjbourque.github.io/project1/> | <https://github.com/christopherjbourque/project1>

- A single Html page that consists of a task manager, weather dashboard, the date and time, and a Soundcloud music player.
- Responsible for Soundcloud player API.
- Technologies used: HTML, CSS (Foundation), JavaScript, Lodash, Open Weather API, Soundcloud API, Mapbox API.

Google Books Search | <https://intense-lowlands-28384.herokuapp.com/> | https://github.com/wilsonbirch/Google_Books

- A React-based web application build with the MERN stack. Uses the Google books API to search 10 books by name. The app allows for saving any searched book to a Mongo Atlas DB. Any saved books can be deleted from the database.
- Responsible for the entire app, all front and back end code
- Technologies used: Mongo, Express, REACT, Node, Mongoose, React-bootstrap, Axios, React-router

Restaurant Reviewer | <https://secure-mesa-11479.herokuapp.com/> | <https://github.com/wilsonbirch/restaurant-reviewer-2.0>

- An Html based application that allows the user to search restaurants by name or location (EU). Once searched, the user is able to save/review their favourites.
- Responsible for database and frontend development.
- Technologies used: HTML, CSS (Bootstrap), JavaScript, Handlebars, Es-lint, Travis-CI, Passport, Bcryptjs, mySQL, Sequelize, Express

SUMMARY OF QUALIFICATIONS

- Ontario Health and Safety Representative Certified, 2019
- WHMIS and Safety at Heights, Fall Protection Certified, 2015
- Extensive experience using Microsoft Office Suite (Word, Excel, Outlook, and PowerPoint).
- Past modelling Experience: Autocad, MATLAB, Creo (Pro-E), Autodesk Fusion 360, Solidworks.
- Excellent ability to learn and adapt quickly in new environments.
- Work proficiently under time constraints.
- Able to work productively individually or in a team setting.
